It was sleeting and people were riding up with ice in their eyebrows.

Those guy/gals went thru pounding rain, sleet, fog, clouds coming up the mountain, wind at about 15-25 miles an hour, it was about 52 degrees, with a wind chill about 30, not to mention a pitted road from construction, at times ZERO visibility except for the yellow line, construction equipment looming up out of the clouds like dinosaurs, and that was just the vision I had from my truck. Those people rock!!!!!!!
